# Wintry Weather on the Way

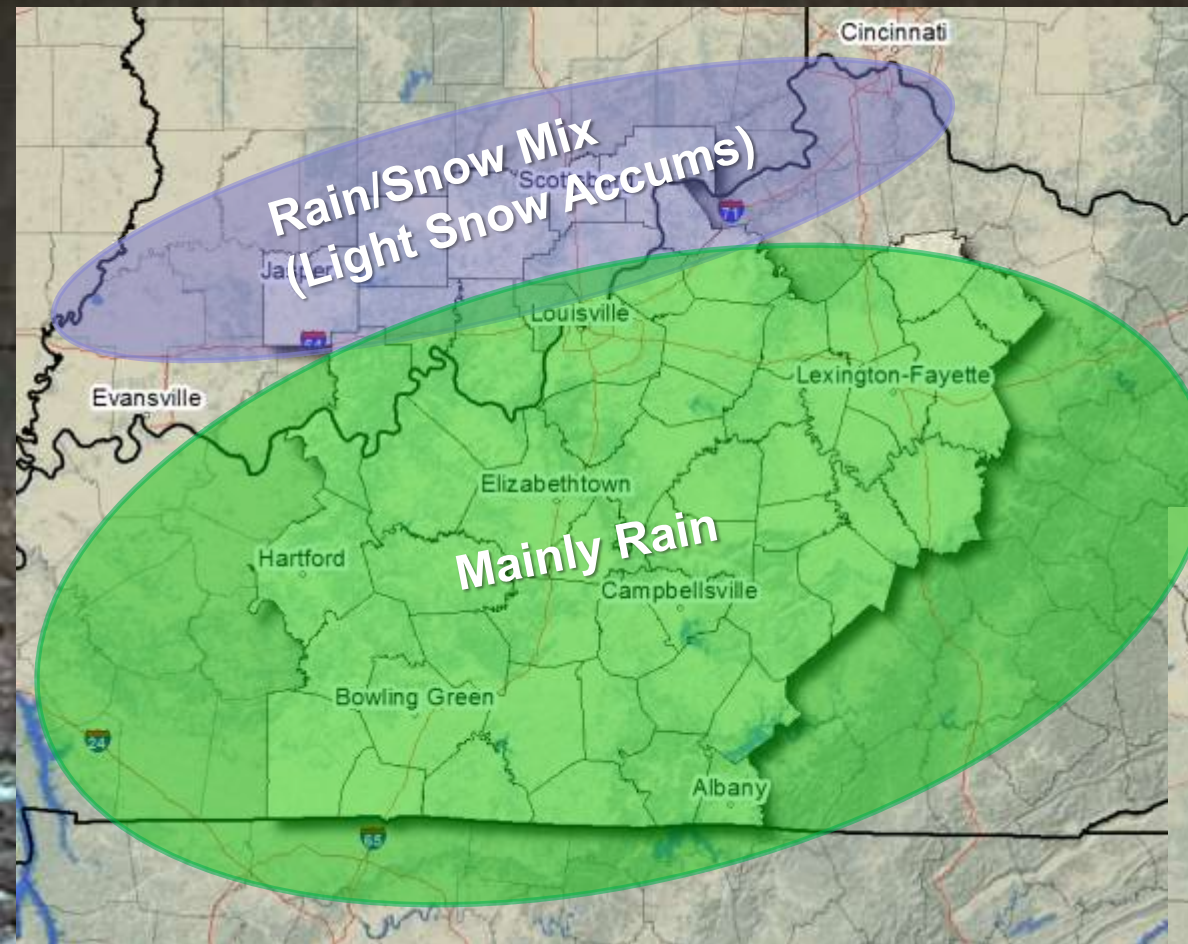

- A potent upper trough and surface low will approach the Ohio Valley early Sunday
- The exact strength and track of this weather system will be key in determining which areas receive significant snow on Sunday

# Track #1 – Northern Solution

# Snow Accumulation Potential

## **\*\*Preferred Track\*\***

- Although much uncertainty still exists in the forecast track of this weather system, the preferred track would yield at least light snow accumulations for much of the area by Sunday night.
- Bitterly Cold Temps will follow (see next slide)
